INIYAN

BE-ELECTRONICS AND COMMUNICATION ENGINEERING · VELAMMAL ENGINEERING COLLEGE

No:16 10th street, Balaji Nagar, Anakaputhur Chennai-600070

(+91) 8825642924 | iniyanselvakumarr@gamil.com | Portfolio | Iniyan Sk | Iniyan-selvakumar

Summary

Electronics and Communication Engineering student with strong foundation in frontend development (HTML, CSS, JavaScript) and basic knowledge of Java. Passionate about building user-friendly, data-driven applications. Eager to start a career in software development and contribute to innovative projects.

Education

Velammal Engineering College — *Tamil Nadu, India* — *2026*

B.E in Electronics and Communication Engineering | CGPA: 7.77/10

Sri Sankara Vidyalaya Matriculation Higher Secondary School — *Tamil Nadu, India* — *2022*

Grade-12 | Percentage: 85.67

Sri Sankara Vidyalaya Matriculation Higher Secondary School — *Tamil Nadu, India* — *2020*

Grade-10 | Percentage: 71.40

Projects

HANDLED DEVICE FOR APARTMENT BUILDING QUALITY DETECTION — *Present*

ADXl vibration sensor, Fast marching method, MATLAB, ESP32, ThingSpeak

- Engineered a system for assessment of building quality by integrating vibration sensors (ADXL and ESP32) and a deep learning approach for crack detection.
- Applying MATLAB Machine Learning models for analysing vibration signals and predicting the stability and aging patterns.
- Created a modern landing page with responsive design to enhance user experience across devices.

IPL AUCTION WEBSITE — *Feb 2026*

HTML, CSS, JavaScript

- Developed an interactive IPL Auction web application to simulate player bidding and team selection, showcasing frontend development skills.
- Implemented dynamic functionalities such as player selection, bidding process, and real-time updates to enhance user interaction.
- Structured the project to demonstrate problem-solving ability, logical thinking, and continuous learning in modern web development.

PERSONAL PORTFOLIO WEBSITE — *Dec 2025*

HTML, CSS, JavaScript

- Created a personal project portfolio website to professionally showcase skills, experience, and technical background in a structured and visually appealing manner.
- Designed and built a responsive, user-friendly interface using modern web technologies to ensure accessibility across devices.
- Serves as a centralized platform to highlight learning journey, technical competencies, and continuous improvement in software development.

FASHAURA ECOMMERCE WEBSITE

Oct 2025

HTML, CSS, JavaScript, Google Apps Script

- Developed a responsive fashion e-commerce website (FASHAURA) using HTML and CSS Flexbox/Grid. This ensured smooth browsing on both mobile and desktop.
- Improved user experience with JavaScript by adding product search, a cart, and a wish list using local storage.
- Also integrated Google Sheets for order tracking and providing a mobile-friendly navigation menu.
- Established an engaging interface with promotional sliders, hover animations, optimized images, and semantic code for fast performance and easy maintenance.

BEFIT-GYM WEBSITE

HTML, CSS, JavaScript

Dec 2024

- Established CSS Flexbox to create a mobile-friendly, responsive gym website that highlights services and welcomes member inquiries.
- To create an engaging user experience, interactive elements such as a testimonial slider and mobile navigation menu have been Created using plain JavaScript.
- Quick load times and maintainability were guaranteed by crafting clear, semantic HTML and CSS and optimizing images for online speed.

REAL-TIME PATIENT MONITORING AND TRACKING SYSTEM

Apr 2024

ESP8266, Arduino IDE, MLX90614 Sensor, Telegram Bot API

- Implemented an IoT-based system with a NodeMCU and MLX90614 sensor to monitor patient temperatures without contact and in real time.
- Generated a program for the ESP8266 microcontroller in C++ that acquired temperature data using I2C communication with Wi-Fi support for monitoring temperature remotely.
- Milestones included an instant alert system using the Telegram Bot API that sent automated alerts for fever (100°F/37.8°C threshold) to caregivers in less than 5 seconds.

Skills

- JAVA (Beginner)
- HTML5 (Intermediate)
- CSS (Intermediate)
- JAVASCRIPT (Beginner)
- MySQL

Honors & Awards

2024 **Participated,** IEEE Paper Presentation, Paper titled- "Weather Forecasting Enhanced Accuracy Using Hybrid LSTM and Random Forest Models." Certificate

2024 **Completed,** project exhibition at the INVENTRONIX'24 - Velammal Engineering College. Certificate
