# INIYAN

**BE-ELECTRONICS AND COMMUNICATION ENGINEERING · VELAMMAL ENGINEERING COLLEGE**

*No:16 10th street, Balaji Nagar, Anakaputhur Chennai-600070*

(+91) 8825642924 | iniyanselvakumarr@gamil.com | Iniyan Sk | Iniyan-selvakumar

## Summary

I am an Electronics and communication engineering having knowledge in frontend development. My interests lie in frontend development (HTML, CSS, JavaScript), Java (beginner). I enjoy utilizing data to solve problems and gain insights and always strive to stay up-to-date with the latest developments in the field. I aspire to pursue a career in creating data-driven products.

## Education

**Velammal Engineering Collage** — *Tamil Nadu, India* — *2026*

B.E in Electronics and Communication Engineering | CGPA: 7.77/10

**Sri Sankara Vidyalaya Matriculation Higher Secondary School** — *Tamil Nadu, India* — *2022*

Grade-12 | Percentage: 85.67

**Sri Sankara Vidyalaya Matriculation Higher Secondary School** — *Tamil Nadu, India* — *2020*

Grade-10 | Percentage: 71.40

## Projects

### FASHAURA ECOMMERCE WEBSITE — *Present*

HTML, CSS, JavaScript, Google Apps Script

- Developed a responsive fashion e-commerce website (FASHAURA) using HTML and CSS Flexbox/Grid. This ensured smooth browsing on both mobile and desktop.
- Improved user experience with JavaScript by adding product search, a cart, and a wish list using local storage.
- Also integrated Google Sheets for order tracking and providing a mobile-friendly navigation menu.
- Established an engaging interface with promotional sliders, hover animations, optimized images, and semantic code for fast performance and easy maintenance.

### BEFIT-GYM WEBSIT

HTML, CSS, JavaScript — *Dec 2024*

- Established CSS Flexbox to create a mobile-friendly, responsive gym website that highlights services and welcomes member inquiries.
- To create an engaging user experience, interactive elements such as a testimonial slider and mobile navigation menu have been Created using plain JavaScript.
- Quick load times and maintainability were guaranteed by crafting clear, semantic HTML and CSS and optimizing images for online speed.

### REAL-TIME PATIENT MONITORING AND TRACKING SYSTEM — *Apr 2024*

ESP8266, Arduino IDE, MLX90614 Sensor, Telegram Bot API

- Engineered an IoT-based system with a NodeMCU and MLX90614 sensor to monitor patient temperatures without contact and in real time.
- Generated a program for the ESP8266 microcontroller in C++ that acquired temperature data using I2C communication with Wi-Fi support for monitoring temperature remotely.
- Milestones included an instant alert system using the Telegram Bot API that sent automated alerts for fever (100°F/37.8°C threshold) to caregivers in less than 5 seconds.

## Skills

- JAVA (Beginner)
- HTML5
- CSS
- JAVASCRIPT (Beginner)
- MySQL
- Power BI

## Honors & Awards

2024 **Participation Certificate,** IEEE Paper Presentation, Paper titled- "Weather Forecasting Enhanced Accuracy Using Hybrid LSTM and Random Forest Models." *Certificate*

2024 **Completed,** project exhibition at the INVENTRONIX'24 - Velammal Engineering College. *Certificate*

2023 **Contributed,** the Smart India Hackathon 2023 - Velammal Engineering College. *Certificate*
